Rohan Hoffman

Irvine, CA | (626) 426-3231 | rphoffma@uci.edu | linkedin.com/in/rohanhoffman | rohanhoffman.github.io

EDUCATION

Mechanical Engineering, B.S. GPA: 3.6 June 2027 Expected Graduation

University of California, Irvine, Irvine, CA

Pre-Engineering, A.S., Physics, A.S., Mathematics, A.S. GPA: 3.8 June 2023 – June 2025

Citrus College, Glendora, CA

SKILLS: SOLIDWORKS, MATLAB, Python, Basic Manufacturing (CNC Machining, 3D Prints, etc.), Design Optimization, Technical Communication, Industrial Research, Data Acquisition

RELEVANT EXPERIENCE

Zenyuk Group (Electrochemical Engineering Research Lab) March 2026 – Present

Undergraduate Lab Researcher

- Research in electrical contact resistance related to AEM fuel cell technology
- Build an automated fuel cell test stand using high power relays, Arduinos, and sensors

Engineers for a Sustainable World at UCI March 2026 – Present

Project Coordinator

- Ensure project progression and bridge communication between project leads and executive board
- Create general member projects for growth as engineers and engagement in sustainable initiatives

EASEL Group (Education, Autonomous Systems, and Energy Laboratory) January 2026 – Present

Undergraduate Student Researcher

- Co-author a paper on Generative AI and its effects on self-efficacy and learning attribution in undergraduate engineering education with analyzed data collected from students

Anteater Combat Engineering September 2025 – March 2026

Lightweight Team Design Lead

- Worked with a team to design and build a combat robot for an intercollegiate competition
- Lead efforts to design and optimize the bot through iterations of CAD and 3D printing

Music & Arts July 2023 - November 2024

Senior Sales Associate (Part-time)

- Connect with customers to sell them a fitting product or service using professional musical expertise to assist customers (increased store sales by 20%)

RELAVENT COURSES: Solar Renewable Energy Systems, Electrochemical Engineering, Mechanical Systems, Applied Engineering Thermodynamics, Heat and Mass Transfer, Machines and Mechanisms
